

Bunty Bhainsa

Software Engineer | AI System Enthusiast

+91 8984535600 | buntybhainsa0@gmail.com | LinkedIn: [LinkedIn-Bunty](#) | GitHub: [GitHub-Bunty](#)

PROFESSIONAL SUMMARY

Aspiring Software Development Engineer skilled in Python, MERN, FastAPI, java and AI-integrated applications. Experienced in building scalable developer tools, repository analytics platforms, and intelligent systems focused on automation and visualization.

EDUCATION

GITA Autonomous College, Bhubaneswar, Odisha B.Tech in Computer Science and Engineering	2023 – 2027
DAV Public School, IB Valley Area, Odisha Senior Secondary Education (Class XII)	2022 – 2023
Saraswati Vidya Mandir, Odisha Secondary Education (Class X)	2021

EXPERIENCE

Software Development Intern — System Department <i>Mahanadi Coalfields Limited (MCL), Govt. of India PSU</i>	Summer 2025
- Developed MCL's internal website to improve resource accessibility and workflow efficiency across departments.. - Worked on scalable enterprise solutions, deployment workflows, and AI-assisted automation in a PSU environment.	
Java Developer Trainee <i>Odisha Computer Application Centre (OCAC), Odisha</i>	Jul 2025 – Present
- Receiving training in Core Java, Advanced Java (J2EE), OOP, and SDLC practices. - Developing and debugging modular Java applications with Git-based version control workflows.	

PROJECTS

CodeLens AI — AI-Powered code analysis Intelligence Platform	Link
Developed a real-time repository intelligence system analyzing 10+ maintainability metrics including Cyclomatic Complexity, Halstead Metrics, and Maintainability Index.	
SemanticPDF — AI Document Intelligence System	Link
Engineered a scalable RAG pipeline reducing document query retrieval time by ~60% using semantic chunking, vector embeddings, and Pinecone similarity search.	
AI-Powered 3D Social Network Analyzer (Ongoing)	
Designing a high-performance graph analytics platform capable of real-time 3D visualization of complex social network relationships using Neo4j and Three.js.	
AI Meeting Intelligence (NotePilot)(Ongoing)	Link
Built a low-latency AI meeting platform achieving ~95% transcription accuracy with real-time speaker diarization, WebSocket streaming, and automated MOM generation.	

SKILLS

Languages & Frameworks: Java, Python, JavaScript, TypeScript, React.js, Node.js, Express.js, FastAPI, Three.js
AI / ML: PyTorch, Scikit-learn, NetworkX, NLP, Graph Algorithms, RAG Pipelines
Databases & Tools: MongoDB, Neo4j, Redis, PostgreSQL, MySQL, Git, GitHub, Postman, REST APIs, figma
DevOps & Cloud: GitHub Actions, Docker (Basics), Railway
Core Concepts: OOP, Microservices Architecture, Modular System Design, DBMS
Soft-skills: Problem Solving, Communication, Research Mindset, Innovation & Creativity

LEADERSHIP & ACHIEVEMENTS

- Completed software development internship at Mahanadi Coalfields Limited (MCL), a Govt. of India PSU, contributing to enterprise-grade systems and AI-powered workflow automation.
- Participated in Smart India Hackathon (SIH) and multiple campus hackathons, demonstrating rapid prototyping and collaborative problem solving under time constraints.
